I. BACKGROUND

This Standard Operating Procedure details the specific standards and behaviors for implementing GO-PER-201.35 (Customer Service Standards and Testing).

MPD employee performance in implementing customer service standards will be evaluated by internal and external customer service checks.

II. DEFINITIONS

When used in this directive, the following terms shall have the meaning designated:

- A. Desk Numbers – telephone numbers for individual Department employees.
- B. External Customers – members of the public or members of other agencies or organizations requesting services or information either in person or over the phone.
- C. External Customer Service Checks – quality control personnel, supervised by the Mayor's Office, will be phoning Metropolitan Police Department members throughout the organization, requesting services or information, and scoring and documenting the results of calls based on the level of service provided. Calls will be scored on a five-point scale, with five being the highest quality score. The Mayor has implemented a performance standard that 80 percent of city agencies will receive a test call average score of at least 4.0.
- D. Internal Customers – Employees of the Department who request services or information, either in person, or over the phone.

- E. Internal Customer Service Checks – Community volunteers and/or police, supervised by the Office of Organizational Development, who are trained to make telephone calls, or in-person visits, to test the quality of services being delivered by main, large, or small service units in the Department. Calls and visits will be documented and scored based on the level of service provided, and feedback will be provided to unit commanders.
- F. Large Service Numbers – published numbers that go directly to an operational unit providing a service (e.g., a district station, Corporate Communications, the Office of the Chief).
- G. Main Service Numbers – entry points into the Metropolitan Police Department. Main numbers route calls throughout the organization.
- H. Member – Refers to both sworn and civilian employees of the Department.
- I. Service Unit – Department elements that provide service directly to the public.
- J. Small Service Numbers – phone numbers receiving a volume of calls that do not demand more than one dedicated, full-time equivalent employee staffing the number.

III. BASIC CUSTOMER SERVICE REQUIREMENTS

- A. Every member, regardless of rank, grade or assignment, is responsible for providing the highest quality of customer service. Failure to do so may result in adverse action up to, and including, removal from the position.
- B. Members shall use customer-friendly telephone protocol, which includes:
 - 1. A standard greeting when answering each phone call.
 - 2. Standard “on-hold” procedures.
 - 3. Standard transferring procedures.
 - 4. Standard “end-call” procedures for information and/or service requests.
- C. Members shall take personal responsibility for each call, and each request for service or information.
- D. Members and units shall record a standard greeting in their voice mailbox messages.

- E. Activated voice mailboxes shall be operational 24 hours a day, seven days a week. When inoperative, a request for unit servicing will be made within 24 hours to the Landline and Wireless Telephone Support Unit in the Office of Police Communications.
- F. Phone calls shall be returned within 24 hours or one (1) business day of receipt unless extenuating circumstances exist (e.g., sick leave).
- G. All main service numbers shall be staffed at all times during hours of operation. The 9-1-1 and 3-1-1 numbers are staffed 24 hours a day, seven days a week.
- H. Members shall promptly respond to in-person requests for information or service.
- I. Generally, handling in-person customer requests should be given preference over handling telephone customer requests. Exceptions should be made in the case of emergency phone calls.
